Nationwide Recruitment Network Delivering Skilled Workforce Across Industries

We operate recruitment and trade centers across India, supported by a database of over 50,000 candidates. Our Mumbai headquarters, just 10 minutes from the airport, can host interview drives for up to 300 candidates. We cater to industries including Construction, Oil & Gas, Engineering, Healthcare, IT, Hospitality, Logistics, and Facility Management, supplying Blue and White Collar workers, Labourers, and Helpers—often at short notice.

Our training centres ensure candidates are deployment-ready through orientation and skill preparation. Backed by an automated recruitment system, regional office support, and targeted national job postings, we deliver manpower solutions efficiently and in line with international standards. We also leverage print and social media channels for maximum outreach.

Additionally, we actively support India's Skill India initiative and programs like ORMAS (Odisha Rural Development and Marketing Society), successfully placing trained female sewing machine operators in overseas garment factories. Our placements in Jordan, under ethical zero-cost hiring policies, have earned client appreciation for skill and professionalism—leading to continuous demand for Indian female workers.
